

## Green Mountain Animal, LLC

# GREEN M UNTAIN ANIMAL LLC

## COMPANION ANIMAL HEALTH PRODUCTS

### ABOUT

Green Mountain Animal, LLC was established with one clear mission: To partner with companion animal companies to advance the growth of their animal health products and pet treats. We began by offering consultation services to small and well established companies – helping with business, ingredient, formulation, manufacturing and distribution solutions.

We've now expanded to include custom formulation manufacturing in a wide variety of product forms. With over 25 combined years of leadership in the companion animal industry, we've formed strategic alliances with reputable animal health organizations around the globe to raise industry standards in the production of companion animal health products and treats.

We place a strong emphasis on science in the custom formulation and development of your products. We are committed to using only the highest quality ingredients and exacting research standards to create products that will meet and exceed the expectations of the ever-evolving consumer.

As a contract manufacturing partner, we are able to bring our technology, research and production expertise together under your label for a quality product at a fair cost. Our strict quality assurance and manufacturing standards are backed by a quality guarantee.
